

LIST OF APPROVED PRODUCTS FOR USE IN PUBLIC WATER SUPPLY IN THE UNITED KINGDOM

All approved products must be used in accordance with the specific conditions of approval, listed against the product names in Parts A-E. In addition, the following general conditions of approval apply to all approved products:

1. That use is in accordance with an Instructions for Use document. Approval holders must provide drinking water suppliers with copies of the Instructions for Use Document that was considered by the Drinking Water Inspectorate (DWI) when approval was recommended.
2. That the approval of the Authorities is obtained on condition that there shall be:
 - no change in the formulation of the approved product, including change in the source or identity of raw materials
 - no change in the manufacturing process, including location of manufacture
 - no change in designation of the approved product
 - no change in name or ownership of the organisation holding the approval
3. That the producer shall ensure that the product is tested for conformity with its formulation, and the source or identity of its raw materials, at such intervals and by such persons, as may be determined by the Authorities. The results of such testing shall be sent to the Authorities.
4. If there is suspicion that any of the above is not being followed or has been changed then notify DWI Regulation 31 team who will investigate (reg31.enquiries@defra.gsi.gov.uk)
5. That the approval is still valid. Products without expiry dates are being processed in accordance to the [information letter 07/2016](#)

PART A CHEMICALS AND FILTER MEDIA

It is the responsibility of the drinking water suppliers to ensure that

(a) the method and manner of use; and

(b) the purity of these chemicals and products are such that the water treated meets the requirements of the relevant regulations. Where appropriate, additional specific conditions of approval are listed against the chemical or product.

Approval holders and water companies should be aware that products or substances that claim to have a biocidal effect or are used as biocides may require authorisation under the Biocidal Products Regulation. HSE is the UK competent authority for the Biocidal Products Regulation and so any queries about whether that legislation applies to a specific product or substance should be addressed to biocidesenquiries@hse.gov.uk

A.1 Flocculants and Coagulants

A.1.1 Products based on tannin

This section contains no products

A.1.2 Products based on polyacrylamide

For the products listed below the following conditions apply:

(i) no batch must contain more than 0.020% of free acrylamide monomer based on the active polymer content;

(ii) the dose must average no more than 0.25 mg/l and never exceed 0.50 mg/l of the active polymer;

(iii) an upper limit for the content of free acrylamide monomer must be stated by the supplier for every batch; and

(iv) the method used for the analysis for free acrylamide monomer is that published in the series "Methods for the Examination of Waters and Associated Materials" entitled "Determination of Acrylamide Monomer in Waters and Polymers 1987" (HMSO 1988) Method number 115. ISBN 01175 2039X.

A.1.3 Products based on polyamine

For the products listed below the following conditions apply:

- (i) the dose must average no more than 2.5 mg/l and never exceed 5.0 mg/l as the active polymer;
- (ii) no batch must contain more than 40 mg/kg 3-monochloropropane-1,2-diol;
- (iii) the analytical system used for determining the batch content must have a limit of detection no greater than 4 mg/kg. Both estimates must have at least 10 degrees of freedom and have been determined from batches of analyses carried out on not less than five separate days; and
- (iv) the supplier must state for every batch an upper limit for the content of 3-monochloropropane-1,2-diol.

DWI 56/4/1176

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Issue 1 - 17th March 2015

Approval expiry date: 13 September 2021

A.4 Disinfestation, Disinfection or Cleaning Agents of Waterworks Apparatus and Distribution Systems

With effect from 1st October 2015 a policy change has been implemented to the requirement for regulatory approval of products and substances clearly intended to be used whilst plant/equipment is off line. These products or substances are normally flushed away or their concentration is reduced to a minimum, that gives rise to no, or negligible risk, to water quality, before the supply is resumed.

Since these substances and products are not intended to be introduced or applied to water intended to be supplied for domestic purposes they do not come within the scope of regulation 31 and approval is no longer required.

The current listings in section A4 below will however remain until the five year period of validity of the existing approval has expired

During the approval process there is no evaluation of a product's effectiveness, only of its safety in use. An approval given in this section does not certify that the Authorities are satisfied that the product is effective, but only that it is safe for use in accordance with the Instructions for Use supplied.

The fact that a product is approved does not justify any claim about its effectiveness.

Permission or consent for disposal of any wastewater generated to a sewer or watercourse must be obtained from the relevant water Service Company, or Environment Agency in England and Wales or Scottish Environment Protection Agency (SEPA) in Scotland as appropriate.

A.6 Disinfectants for Emergency Use

Disinfectants for emergency use are no longer approved and listed under the requirements of relevant regulations. Guidance upon the choice and use of disinfectants in an emergency is provided in Advice Sheet 9 (<http://www.dwi.gov.uk/drinking-water-products/advice-and-approval/Advicesheet9.pdf>).

Approvals of previously listed disinfectants for emergency use have been revoked – see Information Letter 08/2008 (http://www.dwi.gov.uk/stakeholders/information-letters/2008/08_2008.pdf)

This section contains no products

A.7 Products Based on Traditional Chemicals

A.7.1 Traditional Chemicals

The following traditional chemicals (not currently covered by a specific appropriate BS EN) are considered by DWI to meet the requirements of the relevant regulations subject to the following condition:

The method of use and the purity of these products shall be such that, when used in the treatment of water intended for human consumption, the water so treated shall meet the appropriate requirements of the Water Supply (Water Quality) Regulations.

Traditional Chemical

Calcium chloride	DWI 56/1/106
-------------------------	--------------

Calcium sulphate	DWI 56/1/106
-------------------------	--------------

Citric acid (food grade)	DWI 56/1/106
---------------------------------	--------------

Conditions of Approval:

For use only in cleaning of membranes

Crushed flint	DWI 56/1/106
----------------------	--------------

For example Flintag

Ferrous chloride	DWI 56/1/106
-------------------------	--------------

Lithium Salts	DWI 56/1/106
----------------------	--------------

Conditions of Approval:

For this product the following additional condition applies:

The use of lithium salts for meter calibration in water mains is acceptable providing that the maximum concentration of lithium in water supplied to consumers does not exceed 0.10 mg/l at any time (the analytical method used for lithium determination should have an accuracy better than ± 0.01 mg/l at 0.10 mg/l).

Magnesium carbonate	DWI 56/1/106
----------------------------	--------------

Magnesium hydroxide	DWI 56/1/106
----------------------------	--------------

Magnesium sulphate	DWI 56/1/106
---------------------------	--------------

Use only for re-mineralisation with RO membrane systems

Magnetite	DWI 56/1/106
------------------	--------------

Iron oxide (Fe₃O₄)

Products supplied as mixture of magnesium hydroxide and magnesium oxide

DWI 56/1/106

Sodium sulphate

DWI 56/1/106

A.7.2 On-site electrolytic generation of chlorine

Products in this section are not fully covered by EN 901 (sodium hypochlorite) and must conform to the following conditions of use:

- (i) the method of use and the purity of the output of these products shall be such that, in the case of water for public supply, the water so treated meets the requirements of the relevant Regulations; and
- (ii) the treated water must not contain more than 700 µg/l chlorate.

De Nora Water Technologies UK Services Ltd

Clortec cell

DWI 56/4/549

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Version 3.1 dated 19 January 2015

Approval expiry date: 17 March 2020

Evoqua Water Technologies Ltd

Wallace and Tiernan OSEC®

DWI 56/4/775

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: WT.085.030.001.GE.IM.0612

Approval expiry date: 11 July 2017

Grundfos Holdings A/S

Sodium Hypochlorite generated by Selcoperm

DWI 56/4/864

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: IFU v003

Approval expiry date: 23 March 2021

Portsmouth Aviation Ltd

ESOL

DWI 56/4/1173

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: PTN 1365-200719, issue: 2, issue date: 16/07/2015

Approval expiry date: 19 July 2020

Prodose Ltd

MP Electrolyser

DWI 56/4/1082

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Statement of effectiveness in use. Fitness for purpose Version 3 19th February 2013

Approval expiry date: 8 April 2018

A.7.3 On-site generation of chlorine dioxide

Products in this section are not fully covered by EN 12671 (chlorine dioxide). The following products must conform to the following conditions of use:

- (i) the method of use and the purity of the output of these products shall be such that, in the case of water for public supply, the water so treated meets the requirements of the relevant Regulations; and
- (ii) the combined concentration of chlorine dioxide, chlorite and chlorate shall not exceed 0.5 mg/l as chlorine dioxide in the water entering supply.

Grundfos Holdings A/S

Oxiperm ISIA (with U-type reactor)

DWI 56/4/1236

Conditions of Approval: Use of the product must be in accordance with the Instructions for
Use: IFU Version 1, 2016

Approval expiry date: 30 November 2021

International Water Solutions Ltd

Chlorine Dioxide generated by Xziox

DWI 56/4/998

Conditions of Approval: Use of the product must be in accordance with the Instructions for
Use: Issue 1.8 Dated 27/01/16

Approval expiry date: 31 January 2021

A.8 Disinfestation Agents

During the approval process there is no evaluation of a product's effectiveness, only of its safety in use. An approval given in this section does not certify that the Authorities are satisfied that the product is effective, but only that it is safe for use in accordance with the Instructions for Use supplied.

The fact that a product is approved does not justify any claim about its effectiveness.

Bournemouth and West Hampshire Water Plc

Permasect WT for use in application to slow sand filters

DWI 56/4/720

Conditions of Approval:

- (i) water undertaker to notify DWI 7 days before start of dosing;
- (ii) the dose must not exceed 100 µg/l and the residual must not exceed 0.1 µg/l in the treated water;
- (iii) the period of dosing shall be kept to a minimum and must never exceed more than once in a 28 day period;
- (iv) prior to dosing, the water undertaker must establish that the filter bed to be dosed is intact and free from defects that would permit short-circuiting of normal flow patterns;
- (v) monitoring of permethrin in the final treated water entering supply and in water leaving each treated filter must be carried out at daily intervals during the first 7 days following commencement of dosing;
- (vi) to submit to us no later than 3 days after cessation of each application, the records of prefilter checks, product batch number, time and amount of dose and monitoring results for each filter at every site and;
- (vii) permission or consent for disposal of any wastewater generated to a sewer or water course must be obtained from the relevant water service company or Environment Agency in England and Wales or Scottish Environment Protection Agency (SEPA) in Scotland, as appropriate.

C.1 In-situ Installed (tubular) pipe linings

Aqualiner Ltd

Water Pipe Lining

DWI 56/4/910

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Instructions for Use: Water Pipe Lining. Version No 5 Issue Date: 21 October 2010

Approval expiry date: 6 November 2021

C.2 In-situ applied Pipe Coatings

In-situ applied lining products approved for use by the Authorities for the relining of existing water mains/pipes must be applied in accordance with strict operational requirements as documented in the Water Industry Information & Guidance Note IGN 4-02-02 <http://www.water.org.uk/home/member-services/wis-and-ign/archived-documents/ign-4-02-02.pdf> "Code of Practice: In-situ resin lining of water mains" and the Water Industry Specification WIS 4-02-01 <http://www.water.org.uk/home/member-services/wis-and-ign/archived-documents/wis-4-02-01-v2.1---march-2009.pdf> "Operational Requirements: In situ resin lining of water mains".

The coatings listed in this section have been subject to review by DWI (including testing), on the basis of their proposed use with inert substrates such as metallic or cement based structures (or as specified in the manufacturer's Instructions for Use (IFU)), and upon the detailed application and curing requirements set out in the IFU. They have not been evaluated for any other aspect, such as fitness for purpose.

For use with other non-metallic non-cementitious materials, such as plastics, other coatings/linings, and rubbers, a specific application for approval would be required for use of the coating with a specific substrate.

C.2.1 Coatings based on epoxy resins

These products must be applied by a certified contractor.

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: FAST SETTING NATURAL CEMENT WATERSTOP

Issue: 2, Date: 20/10/2016

Approval expiry date: 27 December 2021

Penetron UK Ltd

Penecrete Mortar

DWI 56/4/1130

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Instruction for Use PENECECRETE MORTAR CRYSTALLINE WATERPROOF MORTAR. Issue No: I/1, Issue date: 12/02/2014
Before connection to the supply, the water undertaker or their appointed agent, must carry out tests to establish that migration from the cement mortar lining will not cause a contravention of the upper prescribed concentration for hydrogen ion in the relevant Regulations.

Approval expiry date: 18 September 2019

Penetron Crystalline Waterproof Coating

DWI 56/4/1137

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Instruction for Use PENETRON CRYSTALLINE WATERPROOF COATING. Issue No: I/1, Issue date: 19/05/2014

Approval expiry date: 19 September 2019

Sika Ltd

Sika Monotop 610/612

DWI 56/4/216

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Issue 2, Jan 2013

The product must be cured in accordance with the cure curves provided in the Instructions for Use. The required cure time can be calculated by the user from the minimum daily temperature at the site of application. If the temperature cannot be measured and recorded then a minimum cure period of 21 days at a minimum substrate temperature for application is 5°C.

Approval expiry date: 14 May 2018

Sika Monotop 610/615 Concrete Repair System

DWI 56/4/834

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Sika Mono Top – 615 Cementitious High Build Concrete Repair Mortar. Issue No: 001. September 2007

The product must be cured in accordance with the cure curves provided in the IFU. The required cure time can be calculated by the user from the minimum daily temperature at site of application. If the temperature cannot be measured and recorded then a minimum cure period of 21 days at a minimum substrate temperature for application is 5°C.

Approval expiry date: 12 March 2022

Sikacem 133S Gunitite

DWI 56/4/1084

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Issue No: 003 Issue Date: January 2017

The product must be cured in accordance with the cure curves provided in the Instructions for Use. The required cure time can be calculated by the user from the minimum daily temperature at the site of application. If the temperature cannot be measured and recorded then a minimum cure period of 21 days must be used. Minimum substrate temperature for application is 5°C.

Approval expiry date: 30 May 2018

Sikadur Combiflex SG jointing system using Sikadur 31 DW

DWI 56/4/94

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Sikadur Combiflex SG Jointing system Issue No:006 October 2011

The minimum cure temperature is 7°C for a minimum cure time of 21 days. At temperatures greater than 7°C the product must be cured in accordance with the cure curve provided in the Instructions For Use. The required cure time can be calculated by the user from the minimum daily temperature which must be recorded at site.

Approval expiry date: 3 October 2021

Sikadur Combiflex SG jointing system, using Sikadur 31 DW Rapid

DWI 56/4/1124

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Sikadur Combiflex SG Jointing System, using Sikadur 31 DW Rapid. Issue No: 01, September 2013

This product must be cured for a minimum cure period of 7 days at a minimum temperature of 7°C.

DWI 56/4/747

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Silotank Installation and Maintenance Manual for Connaught Range of Tanks/Towers for Drinking Water and Raw Water to be Treated for Drinking Purposes, Issue 6, 14/11/2005

Approval expiry date: 3 November 2019

Leinster Range of Thermoplastic Tanks

DWI 56/4/498

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Silotank Installation and Maintenance Manual for Leinster Range of Tanks/Towers for Drinking Water and Raw Water to be Treated for Drinking Purposes. Issue 6, 23/5/2005

Approval expiry date: 9 March 2020

Leinster Range of Towers

DWI 56/4/498

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Silotank Installation and Maintenance Manual for Leinster Range of Tanks/Towers for Drinking Water and Raw Water to be Treated for Drinking Purposes. Issue 6, 23/5/2005

Approval expiry date: 9 March 2020

Stainless Metalcraft (Chatteris) Ltd

Stainless Steel Fabrications: Pipework, Tanks and Vessels for use with Drinking Water

DWI 56/4/1211

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Instructions for use of internal pipework, Air pipework and Launder assemblies for use with water intended for human consumption. (Issue 1) 28 January 2016

Approval expiry date: 25 April 2020

Staptina Engineering Services Ltd

Staptina Bespoke stainless steel fabrications: Pipework, Baffles, Troughs, Tanks, Support and Access systems

DWI 56/4/567b

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: 24838IFU 12 June 2013

Approval expiry date: 31 March 2019

E.2 Underdrains

For some products, including underdrains, Section 3.4 of Advice Sheet 7 indicates that products constructed from clay can be used without approval subject to the water supplier carrying out a risk assessment for suitability of the product and its possible impact on drinking water quality

Bilfinger Water Technologies

Johnson Screens Triton Underdrain system

DWI 56/4/908

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Johnsons Screens Triton Underdrains Instructions for Use. Issue date: February 2010, Issue No: 3

Approval expiry date: 24 February 2019

Black & Veatch

K Filter Floor

DWI 56/4/833

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Installation and Test Procedure for K-Type Filter Floors. Document Reference: SSD 019. Issue K. Dated: 24.11.08

Approval expiry date: 11 August 2020

De Nora Water Technologies UK Services Ltd

Tetra LP Block System

DWI 56/4/522

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: INSTRUCTIONS FOR USE DOCUMENT. LP Block Underdrain System. Issue number: 2 Date: 4th July 2009

Approval expiry date: 17 March 2020

Plasmor Ltd

Plasmor E Block

DWI 56/4/988

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Plasmor E Blocks Instructions for Use . Issue 2. Issue Date: 22/12/2010

Approval expiry date: 5 March 2022

Xylem Water Solutions Zelienople LLC

Leopold Type S Underdrain and I.M.S. 1000 Media Retainer

DWI 56/4/1079

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: March 2015 IFU TSU 100F and TLU 100F

Approval expiry date: 21 April 2020

Leopold Type S Underdrain and I.M.S. 200 Media Retainer

DWI 56/4/1078

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: March 2015 IFU TSU 100F and TLU 100F

Approval expiry date: 21 April 2020

Leopold Type S Underdrain and I.M.S. Cap

DWI 56/4/371

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: March 2015 IFU TSU 100F and TLU 100F

Approval expiry date: 21 April 2020

Leopold Type SL Underdrain and I.M.S. 1000 Media Retainer

DWI 56/4/1079

Conditions of Approval: Use of the product must be in accordance with the Instructions for
Use: March 2015 IFU TSU 100F and TLU 100F

Approval expiry date: 21 April 2020

DWI 56/4/1105

Conditions of Approval: Use of the product must be in accordance with the Instructions for
Use: IFU-XA-101F April 2013

Approval expiry date: 16 June 2019

Leopold Type XA Underdrain and I.M.S. 200 Media Retainer

DWI 56/4/1105

Conditions of Approval: Use of the product must be in accordance with the Instructions for
Use: IFU-XA-101F April 2013

Approval expiry date: 16 June 2019

Leopold Type XA Underdrain and I.M.S. Cap

DWI 56/4/1105

Conditions of Approval: Use of the product must be in accordance with the Instructions for
Use: IFU-XA-101F April 2013

Approval expiry date: 16 June 2019

E.3 Pressure vessels

Barr + Wray Ltd

Barr + Wray Stainless Steel Media Filter

DWI 56/4/1234b

Conditions of Approval: Use of the product must be in accordance with the Instructions for
Use: IFU Issue No: 1, 20 July 2016

Approval expiry date: 21 November 2021

Charlotte Reservoirs

Hydrochoc Butyl Bladder Surge Vessel

DWI 56/4/1016

Conditions of Approval: Use of the product must be in accordance with the Instructions for
Use: Commissioning General Instructions for Hydrochoc Butyl Bladder
Surge Vessel for Clear Water. . Issue No: 2 Date of Issue: 2nd Nov
2016

Approval expiry date: 6 April 2022

CPE Pressure Vessels

CPE Pressure Vessels - 316L Stainless Steel

DWI 56/4/1136

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: IFU-01 Rev C 06/03/2013

Approval expiry date: 25 March 2019

CPE Pressure Vessels-304 Stainless Steel

DWI 56/4/1135

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: IFU-01 Rev C 06/03/2013

Approval expiry date: 25 March 2019

Quantum Engineering Developments Ltd

Quantum Pressure Vessels- 304L

DWI 56/4/1132

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: IFU – 01

Approval expiry date: 30 March 2019

Quantum Pressure Vessels- 316L

DWI 56/4/1133

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: IFU – 01

Approval expiry date: 30 March 2019

E.4 Other Products used for the treatment of water

2H Water Technologies Ltd

TUBEdek FS41.50/84 PP

DWI 56/4/878

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Information for Use Document. TUBEdek Lamella Separators Type FS41.50PP & FS41.84PP. Version 1.3 September 2009

Approval expiry date: 26 June 2017

AJ Engineering and Construction Services Ltd

Stainless Steel Pipework and Fabrications

DWI 56/4/1220b

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Stainless Steel Pipework and Fabrications for water use. Issue Number: WO41, Issue date: 04/08/2016

Approval expiry date: 19 September 2021

AMCON Europe s.r.o

Volute Dewatering Screw Press

DWI 56/4/1144

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: VOLUTE Dewatering Press ES-CE-DW Series Instruction Manual. Version DW1.00 issued on 19.6.2014

Supernatant from the press should either be returned to the head of the works or run to waste.

Approval expiry date: 15 October 2019

Atlantic Water Co Ltd

AWG 1500

DWI 56/4/1119

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Ver 1.0 - 15/11/13
Approval expiry date: 18 November 2018

Colloide Engineering Systems Ltd

Lamella Separator Package (LSF)

DWI 56/4/1172

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: 90002-1502 B
Approval expiry date: 23 February 2020

De Nora Water Technologies UK Services Ltd

Rapid Gravity Filter Air Header

DWI 56/4/632

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Issue 2 dated 10 June 2009
Approval expiry date: 17 March 2020

Flo-dyne Ltd

Surge Protector- Model Type SAC

DWI 56/4/962

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Instructions for Use – Flo-Dyne Surge Protector – Model type SAC Issue:1 Issue Date:14/10/09

Forbes Technology Ltd

Cheetah Tower Packings

DWI 56/4/711

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Issue No 5 dated 11.08.14
Approval expiry date: 28 October 2019

Homer Burgess Ltd

Tanks and associated Pipework, Weir Plates and Baffle Plates manufactured from Stainless steel suitable for use with drinking water

DWI 56/4/1107c

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Homer Burgess Ltd., Manufacturer's official use instructions for Stainless Steel Products in contact with Drinking Water.. Issue Number Rev: 0 08/05/2013
Approval expiry date: 22 May 2018

Hydro International

Hydro Internationa - Lamella Plate Separator

DWI 56/4/622

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Hydro International – Lamella Plate Separators Version 2. . 04 February 2013
Approval expiry date: 30 July 2018

Hydro International - Dynasand Sand Filter DS5000AD and Dynasand Sand Filter DST30D

DWI 56/4/608

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: INSTRUCTIONS FOR USE OF THE HYDRO INTERNATIONAL DYNASAND SAND FILTERS DST30D & DYNASAND SAND FILTER DS5000AD Version 2 04 February 2013

Approval expiry date: 30 July 2018

Jacopa Ltd

Stainless Steel DAF

DWI 56/4/1180

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Aug 2015 V005

Approval expiry date: 19 August 2020

Meurer Research Inc

Inclined Plate Settler System

DWI 56/4/1188

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Meurer Research Inc Plate Settler System Ref Issue Number: IFUPS001 Date: 03/06/2015

Approval expiry date: 6 July 2020

MRK Steel Erectors Ltd

Aerator troughs, pipes and steelworks

DWI 56/4/1174

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Issued 27/01/2015

Approval expiry date: 8 April 2020

Nijhuis Water Technology B.V.

IPF and NPF model of Dissolved Air Flotation units

DWI 56/4/620

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: December 2013 rev 0 EJ

Approval expiry date: 19 August 2019

PWN Technologies

Suspended Ion Exchange (SIX)

DWI 56/4/1171

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Instructions for Use for the SIX Technology by PWN Technologies. Dated: 15-Sep-15. Issue: 1.3

This approval does not include any ion exchange resins.

Approval expiry date: 29 September 2020

Sensor (UK) Ltd

Sensorline (Stainless steel)

DWI 56/4/1066

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: SENSORLINE – PE GEOMEMBRANES (IFU VERSION 4.8). 9 August 2012

Approval expiry date: 19 March 2018

Siltbuster Process Solutions Ltd

Dissolved Air Flotation unit

DWI 56/4/1116

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: SBAN10571_R3_Rev3

Approval expiry date: 6 November 2020

Staptina Engineering Services Ltd

Staptina Bespoke stainless steel fabrications: Pipework, Baffles, Troughs, Tanks, Support and Access systems

DWI 56/4/567c

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: 24838IFU 12 June 2013

Approval expiry date: 31 March 2019

Veolia Water Technologies UK

Greca Lamella Plates

DWI 56/4/309

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: IFU Rev A

Approval expiry date: 14 March 2022

Package Actiflo and Multiflo

DWI 56/4/770

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: IFU, VWT/ASMS/S4, Issue 1, Jan 2017

Approval expiry date: 26 April 2022

WEARS Australia

ResMix Vital

DWI 56/4/1131

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Operation and maintenance manual Resmix Vital potable Reservoir Circulation System. Issue 2 October 2015.

Approval expiry date: 9 April 2019

Xylem Water Solutions Zelenople LLC

Leopold Ari Scour System

DWI 56/4/1250

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Air Scour System AHP-IFU-00 Issue date: 12/13/16 Issue number:R01

Approval expiry date: 5 March 2022
